## Underprivileged Children Subject of Talk by Rev. K. C. McLeod at Kiwanis

Official of Provincial Department for Neglected Children Gives Inspiring Talk—Underprivileged Children May Be Divided Into Two Classes, Declares Noted Speaker

The Wetsaskiwin Kiwanis Club enjoyed a real treat at Tuesday's luncheon by listening to a able and instructive address by Rev. K. C. McLeod of the Provincial Department for Neglected Children. The valuable suggestions which he gave the Club were well received, as he spoke on a subject of Kiwanis main objective, a subject close to the heart of every Kiwanis. For the benefit of all those who were not able to hear this address, the Kiwanis Club are desirous of having it printed in detail. The address is as follows:

It is understood, to begin with, that every child should have the opportunity to develop along normal lines, but the human mind is a very delicate thing and is easily bent in one direction or another, especially in its earlier years. For this reason a great deal of attention should be given to the greatest of all professions, the one for which we have never had a training school or a college, that is, the profession of being parents. We have schools of all kinds to teach us philosophy, and science and theology and mathematics and history, but the greatest of all the sciences has no school. Attempts are being made in some places to remedy this defect, and a great deal of work is done now in getting parents to attend courses of instruction, the instruction is taken to them by special social workers, whose interest it is to preserve the home by preparing the parents to do their bit towards the upbringing of their children.

Underprivileged children may be divided into two classes. First, the class of children who should be cared for by the State, for after all, the State is, in the final analysis, the parent of the child. The second class are those who should be cared for by private or community efforts. Putting it in another way, the neglected child and the dependent child, for whom legislation is prepared, is a responsibility of many children who ought to receive the very careful and kindly consideration of the community in which they live. Their case should ideally be one of temporary care or work. We find now in some places so much devotion and so much money contributed towards this work, that the most fortunate child in the community is the underprivileged child. They are better cared for than the average child in the ordinary home. Money is a privilege, often a menace to the young. The only handicap must therefore be physical or mental. To be well born is a great privilege. To be born among great things (environment) is a greater thing. To come under the influence of great men is life's greatest privilege.

The first principle of our work is that every individual child must be treated as a social case study, by himself, for no two human beings are alike and no two react the same in any environment in which they are placed, or towards any person with whom they may come in contact. The greatest problem then, is to know the child and his reactions. Having learned these we can adjust the child so that he will have a normal life and develop naturally, as a child should. We, however, should use every means we have at our disposal, every contrivance for handling children which is not along normal lines is going to vitiate his development.

It has been the custom in times past for social workers in such cases to erect monuments to themselves in the shape of large institutions. It should, however, be the endeavor of all those who are interested in such work to use the means we have at our disposal.

The normal place for a child to grow up in is a family home. The family home, therefore, should be used in every case where at all possible. In this connection it is well to note what happened in the case of the American Legion. They were going to raise several millions to build homes for the dependent children, but the Child Welfare League of America, on whose Executive I happen to be, persuaded them to invest their money and use the interest in having social workers to find family homes where these children could be placed and supervised. The result has been very highly satisfactory to the Legion and they now appreciate the saving that was made for them in overhead expenses.

Institutional care should be used in temporary cases only. If children are not getting the chance that they should, the first endeavor should be to fix up the family, for as I said, this is the first organization in society that

God made, and on it rests the greatest responsibility. If, then, you can adjust the family home, so that it functions properly, the children will develop normally. In such cases the fault may be with the father or with the mother, or with the child, or with any or all of them.

A modern development in social work is the conduct clinic. This is used for children and for parents as well. If you have any physical ailment wrong with you, you go to a doctor and have your system put in working order, so that your body functions naturally. In a similar manner, if a man or woman or child does not behave normally, they send them to a conduct clinic, where a specialist in that work studies them carefully, diagnoses their case and then prescribes the treatment which they should receive. In order to make them function normally in their sphere in society. This clinic is being used now a great deal in dealing with parents, when it is the social workers wish to re-establish a home. Great work has been done in this line by Dr. Miriam Van. Wallers and also Dr. Woolley. Their work has been a boon to truant officers. They are able to bring together the teacher and the pupil in such a way that it ceases to be a responsibility for them to work together, and by changing the attitude of the teacher and the attitude of the boy, the truancy is ended.

The same thing happens in the case of mental complexes, which so often arise in children and deviate their conduct from the normal lines of development. The conduct clinic will put them right. This, too, is the present day method of handling delinquency. The old idea that if you can punish a person severely enough, you can stop them from their evil and make good, has vanished. People now begin to realize that punishment is not the proper treatment for misdeeds, that misdeeds are just as normal a product of environment as good behavior is, and that if you wish better product you must prepare the source of conduct. Today, in all cases of delinquency, a person in place of being inhumanly treated and regarded as a degenerate and a renegade, fit only to be buried about is treated kindly and every endeavor made to make peace between such persons and society.

It is now a recognized principle, that, especially in the case of younger offenders, commitment to a penal institution makes them worse instead of better. In such institutions they, in meeting with others, develop anti-social ideas which are the foundation of their future conduct. Who has not heard men in prison and children in reformatories, promise each other that they will "get even" with the person who sent them there, or they will give them just cause for complaint when they get out. If offenders are treated by the principle of retribution, the offender is going to come back with the same idea in his mind. Prison, therefore, simply develops the same spirit towards society in general. The system today, to find out what is wrong with a person when he does not act normally. As I have so often said, the study of all our social work must be individual case-work, and the salvation of our boys and girls, and of all people, will be social work. We have now schools and colleges for the training of such workers and it is wonderful what things they can do. We must now learn that a great many of our social ills are not so much due to external conditions as to our internal state of mind. For instance, poverty is largely a mental state. Two men work side by side in the same family, in the same workshop, in the same circumstances, exactly—one will get rich and the other will remain poor. The same thing is true of many other things. Slums are a product of the mind, and not of the social conditions, altogether. Money is not the immediate cause of slums. It is a treatment of the case socially. It is therefore apparent that the greatest work of this kind to be done consists not in that, but in the work of a socially minded or socially trained person, working upon the mind of someone else who needs readjustment. If, then, you have an underdeveloped child to deal with, you all take up the case. Put one person on the case, let that person get the feeling "This is my child, I am responsible to self, to child and to God for what becomes of this child." Let that person have the backing of the whole society or club for what he

THE ESKIMO GIRLS OF EDMONTON, INTERMEDIATE BASKETBALL CHAMPIONS OF ALBERTA Who Will Play a Team of Edmonton All Stars Here on May 24  
Reading from left to right: Elsie Burdick, forward; Pudge Sewell, captain and centre; Eileen Riddell, forward; Gladys Knutson, forward; Beatrice Bane, defence; Gertrude Hodgson, defence; Anna Wynneha, defence; and Mary Melnyk, forward.

### BANK MANAGER AT LEDUC HURT IN AUTO SMASH

Edmonton, May 11.—W. F. Sutherland, manager of the Bank of Montreal branch at Leduc, was critically injured when his automobile overturned early Friday morning. While there were no witnesses of the accident, the theory advanced is that he was returning from a visit to Edmonton, his automobile swerved into the ditch. As he endeavored to bring it back on the road, his steering gear broke. His head was crushed as the car overturned. (Note—Mr. Sutherland died on Wednesday.)

### Town Topics

Mrs. C. H. Swanson, who has been quite ill, is now reported to be doing very nicely.

Mr. and Mrs. W. Lechelt and Mr. and Mrs. W. West of Hobbema, spent the weekend in Banff.

Extensive alterations and improvements are being made to the interior of the store of Abousaffy & Sons.

Friday of next week is Victoria Day, and will be generally observed throughout Canada as a public holiday.

This district received a several hours rain on Sunday and Monday last, which will be of considerable benefit.

Curt Smith returned on Saturday from a business trip to Vancouver, where he found business in a flourishing condition.

Mr. and Mrs. F. S. Eakin and children were down from Fibrous over Sunday, visiting Mrs. Eakin's parents, Mr. and Mrs. A. B. Evers.

Mother's Day was generally observed in Wetsaskiwin on Sunday last when nearly everyone wore a bouquet in honor of Mother, and appropriate services were held in all the churches.

Coming to the Salvation Army, a number of young men and women were to conduct a meeting in the Hall on Sunday, May 22nd, at 8 p.m. Sure to be interesting. Come and hear them.

The summer schedule of the C.P.R. came into effect on Sunday last. The only change in the time of departure of trains from Wetsaskiwin is in the afternoon train from the south which now leaves for Edmonton at 1:57 instead of 1:55 as formerly.

Seeding is well advanced in this community. The wheat is all in the ground and many of the fields are showing green. This week's work will see nearly all the oats sown and we understand many farmers will complete seeding operations during the next few days.

Mr. and Mrs. Earl Smith of California were visiting in town during the past few days, as well as visiting Mrs. Amos Doupe of Cherry Grove district. They were taking a motor trip through Western Canada and visited friends in Winnipeg, Calgary and other places. Mrs. Smith was formerly Miss Ethel Waterson.

The work on the new bridge on the Edmonton highway at Lucas Grove is progressing rapidly, and the contractor expects to complete the work shortly. The new bridge is several feet higher than the old, the highway is straightened, and when the work is finished this part of the highway will be much easier and safer for traffic.

Mrs. A. S. Craig was the guest of Miss Carrie Caldwell of Edmonton, at a tea given in honor of Mrs. Craig and her sister, Mrs. E. A. Lee of Vancouver. Among those present were: Mrs. (Rev.) J. A. Caldwell, Edmonton; Miss Lizzie McElraith, Chippewa Falls, Wis.; Mrs. Campbell of Reddown, Sask.; Mrs. J. A. Rodell, Wetsaskiwin; Mrs. Jas. Hodgins, Mrs. E. Gee, Mrs. T. R. Caldwell, Mrs. Robert Paul, Mrs. Wm. McKinley, Mrs. A. Machan, Mrs. H. Hook, Mrs. Lawrence Craig, of Edmonton. Mrs. Craig and her sister were also guests of Mrs. J. A. Caldwell at a tea in their honor.

On Monday of this week, Mayor Montgomery, C. H. Russell, City Solicitor, and Ald. B. D. Howatt, attended the Council meeting of the Municipal District of Blighston, when they requested the Council to pass a resolution asking the Department of Health to submit a vote on the proposed

## Gravelling of City Streets Given Further Discussion by Aldermen

A regular meeting of the City Council was held Tuesday evening, with all members in attendance, excepting Ald. Ellis.

After the adoption of the minutes of last meeting, Mrs. Wallace and Mrs. Fraser, a committee from the Library Board, addressed Council, asking a grant of \$100 to the Library Board for the present year. Request was referred to the Finance Committee.

Dr. McColligan and Mr. Abousaffy, requested that the sidewalk fronting their properties on Alberta street be surfaced with cement. The petitioners were requested to send in a petition and it would be dealt with.

J. I. Poole also addressed Council respecting the proposed cement walk on Mint street, suggesting that the walk be four feet wide and two and one-half feet from the street line. Letter from petitioners will be referred to Town Planning Commission.

Mr. Artinbaker addressed Council re closing lanes on property on Thistle street. Referred to Public Works Committee.

R. M. Angus, police magistrate, addressed Council re turning in police court costs to city. The misander standing in connection with the payments was cleared up.

L. D. Montgomery, fire chief, interviewed Council re the "hot springs" bid for the bridge, recommending that twelve bids, as sample submitted, be purchased. The purchase was authorized.

A Schreffels applied for water and sewer connection to the new residence on Avenue 56. Same was granted.

The Canadian Westinghouse Co. wrote to the city, suggesting that the old shaft be sent to South Philadelphia shop before new shaft can be made. Letter received and filed.

G. A. Thompson applied to be put on permanent staff as fireman at \$90 a month. Request was granted.

G. Baker, secretary M.D. of Montgomery, wrote advising that his Municipality assumed no responsibility in connection with James Gould's relief. Letter filed.

Mr. Seymour, Town Planning expert, wrote re assisting in laying out grounds and parks, and asking for information about sections of special beauty in the district. Letter filed.

The Highway Commissioner gave information about the gravelling of the streets in Wetsaskiwin connecting the government highway, north and south. A report of the engineer's inspection on the Wetsaskiwin streets made last November was also read. He referred to the advantages and disadvantages of three routes through the city, namely, from the north to the Drilard corner, then west on Pearce street to the water tank; down McDonald street to the Bank of Montreal corner, then west to the tank, and down Railway Street west to the north side of the former Weller addition and then west to the Calgary road. The Department will be requested to send an engineer down to con-

fer with the Council in matter of costs, etc.

The offer of Mr. Radoffs of \$20 for two lots in north-east part of city was accepted.

An inquiry of E. Barnett as to price of lot adjoining his property on Pearce Street West was referred to Lands Committee.

C. H. Russell wrote respecting an auto license charged E. W. Carter, who claimed it was not run for the full year. A rebate of three months will be allowed.

A report of the Inspector of Widows' Allowance on the four Wetsaskiwin beneficiaries was read and approved.

The following accounts were passed for payment: General, \$407.84; electric, \$359.57; waterworks, \$206.37.

Ald. Howatt, chairman of Cemetery and Parks Committee, recommended that Arthur Rippon be engaged as caretaker of Cemetery and paid \$400 for this work during the present summer. This was adopted by Council.

The Public Utilities Committee recommended that an area nine miles square with the city as about the centre, be leased from the Dominion Government for gas rights for Wetsaskiwin. Adopted.

The request of Mrs. Sofiak for water connection to property on Beatrice street cannot be granted.

It was agreed that R. A. Sorenson be paid the sum of seven cents a square foot, furnishing material, for all cement work on streets and cross-ings constructed this year.

By-laws No. 658 and 659, authorizing the sale of property to Mrs. Knott and Mrs. P. Zimmerman, respectively, were read three times and finally passed.

The formation of the Town Planning Commission was considered and By-law No. 660 appointing the same was read three times and finally passed. The members are: The Mayor of the city; Chairman of Parks Committee; Chairman of Public Works Committee, for two years term, Messrs. C. H. Boyer, R. W. Manley and Dr. N. A. Johnson; for one year term, Messrs. W. H. Odell, W. Prest and A. S. Rosenroll.

His Worship brought up question of drilling another water well, as last summer. The city used about all the water the wells supplied. The cost is estimated at from \$4000 to \$5000 for a ten inch hole. Mr. Chadwick will be asked for prices on a 6 inch and 8 inch drilling, and the matter will be further considered at next session.

The meeting adjourned.

### GIRL GUIDE NOTES

The Wetsaskiwin Girl Guides held their regular weekly meeting last Wednesday in the Armory. A very good attendance was reported. After the opening exercises the Guides went out and played several stalling games for which they received marks. The meeting was closed by the saluting of the officers and the singing of "Taps."

After the Guide meeting, the Court of Honor was held.

## Two More Municipalities in Favor of a Vote on Hospital

On Saturday last, a delegation from the Municipal Hospital Organization Committee, consisting of R. M. Angus, Police Magistrate, C. H. Russell, City Solicitor, and Ald. B. D. Howatt, met to discuss the proposed hospital plan. After a discussion, a resolution was unanimously passed asking that the vote be taken in due course.

Four of the municipalities in the proposed hospital area have passed favorable resolutions asking that the vote be submitted to the ratepayers on the hospital plan, and it is expected that the other municipalities in the area in which the new hospital organization committee desires to include in the area, will pass similar resolutions at a very early date. The committee is well pleased with the way in which the new hospital scheme has been received since the matter was mooted, and they expect when the vote is taken that it will be largely in favor of the erection of a large modern, municipal hospital, where the patients of this prosperous and progressive community may be properly nourished and cared for when overtaken by sickness.

On Monday of this week, Mayor Montgomery, C. H. Russell, City Solicitor, and Ald. B. D. Howatt, attended the Council meeting of the Municipal District of Blighston, when they requested the Council to pass a resolution asking the Department of Health to submit a vote on the proposed

### CAMROSE MAN IN ACCIDENT NORTH OF WETASKIWIN

On Sunday afternoon last, Hiram Burgar of Camrose met with an automobile accident as he was making the turn from the Camrose highway. The car, a new Chevrolet, ran into the ditch, turning completely over, and was badly damaged. Mr. Burgar was rendered unconscious and was rushed to the Wetsaskiwin hospital, where it was found that in addition to receiving a bad shaking up, he had a deep cut on the leg, which required several stitches. Fortunately the accident was not more serious.

### Town Topics

Mrs. Dabcock of Calgary, visited at the home of Mr. and Mrs. A. Arnsten during the past week.

The Women's H.F.M. Society will meet at the home of Mrs. Adolph Peterson on Friday evening, May 17.

Mr. and Mrs. F. M. Bolton spent the weekend at the home of Mr. and Mrs. Ernest Switzer of Cherry Grove.

The regular meeting of the W.M.S. of the United Church will be held in the Sunday school rooms on Tuesday, May 21, at 3:30.

Mrs. E. E. Finkler of Cardston, is renewing former acquaintances in Wetsaskiwin for a few days. She is the guest of Mrs. Geo. Bayliss.

F. G. Klyft, who has been suffering with rheumatism for some time, left this morning for Banff, for treatment at the Banff Hot Springs.

A. Schreffels has commenced the erection of a fine residence on Dickson Avenue, which will be rushed to completion as soon as possible.

Dr. and Mrs. P. Melling and daughter, who have been the guests of Mr. and Mrs. C. E. Compton, the past week, left on Wednesday morning for their home at Edgerton.

Mrs. H. L. Higgs of Cardston, spent a few days visiting old time friends in the city. She was the guest of Mr. and Mrs. R. W. Manley. She left Tuesday for Edmonton, to attend the convocation of the University of Alberta, as her daughter Helen is graduating this year.

Mrs. H. L. Higgs of Cardston, spent a few days visiting old time friends in the city. She was the guest of Mr. and Mrs. R. W. Manley. She left Tuesday for Edmonton, to attend the convocation of the University of Alberta, as her daughter Helen is graduating this year.

### SASKATCHEWAN ELECTIONS ARE SET FOR JUNE 6

Regina, Sask., May 11.—Thursday, June 6, is the date set for the Saskatchewan provincial elections, according to announcement made Friday by Premier J. G. Gardiner. Nomination day will be Thursday, May 30, and that date candidates for 63 provincial ridings will be nominated.

The Saskatchewan Legislative Assembly will be dissolved today and writs for the election issued.

The Sports Association and Ladies' Athletic Club this year will make every effort to present the public with a highly diversified program of athletic events, and if these efforts are appreciated by the public there should be a bumper crowd at the park on the holiday.

## Public Library Membership Nears Four Hundred Mark

A regular meeting of the Library Board was held on Wednesday of last week, at which Mr. Russell presided as chairman. The other members present were Mrs. Wallace, Mrs. Fraser, Rev. A. Appelt and Mayor Montgomery. Mr. Fraser, as librarian and treasurer, reported that he had funds on hand to pay all the accounts owing and had still a bonus left of the Provincial grant to purchase new books with. He stated the membership was now 354, showing an increase of 61 members since the last meeting in January. Three hundred and eighty-nine books were out on loan at the present date. The membership fees paid from January to April amounted to \$25.25, while the fines collected for the four months amounted to \$21.07, making a total revenue from these two sources of \$46.32 for the first quarter of the year.

As so many country members were availing themselves of the library, it was suggested that the librarian should write letters to the Municipal District Councils of Montgomery and Blighston, asking them to make a grant to the Library, as the residents of these two districts were making good use of it. The purchase of new books for the Library was considered and the want of a good standard dictionary was mentioned. It was thought if anyone had a large dictionary that they were not using, it would

be a splendid thing to donate to the Library. Mrs. Wallace and Mrs. Fraser were authorized to visit the Edmonton Library to gain what assistance they could from the librarian. Mr. Hill, in the way of selecting suitable books for the library here. The librarian was authorized to obtain what books he could from Mr. E. Manley's local bookstore.

The Library Board passed a resolution acknowledging the donations of books made from time to time by the local citizens, and the following parties who had donated books from the beginning of the year, were especially thanked for the books they had sent: Mrs. Evans; Mrs. Maxwell, Brightview; Mr. Lee Kelley, the volumes of "The Life and Letters of Walter Pater"; Mrs. Gilbert Knott; 2 Miss E. Fraser, Toronto; Mrs. McArthur, Mrs. Westwood, Rolito Miguelon, Gordon Fraser, Mrs. J. E. Fraser, Mrs. H. B. Hanson and family; 11 Mrs. (Dr.) Walker, 44.

It is only through these donations and the assistance that has been given by the citizens that the Wetsaskiwin library has taken such a foremost place among the libraries in Alberta.

Anybody's Guess—"Your wife's a blonde, isn't she?" "I'm not sure. She's down at the beauty parlor now."—Brooklyn Eagle.

## Provincial Champions Come Here

Eskimo Girls to Play All-Star Team at Track and Field Sports Here Friday of Next Week

On Friday afternoon of next week, 24th of May, at the athletic park here, for the first time midge and juvenile champions of Wetsaskiwin and district will be wooed out from the flock of youngsters who will participate in the track and field meet being held under the joint auspices of the Wetsaskiwin Sports Association and the newly formed Ladies' Amateur Athletic Club of this city. There will all told be twenty-four events on this program (four sections with six in each section). There will be events as follows for boys under 14 years, girls under 14, boys under 12 and girls under 12: 50 yards dash, 100 yards, 440 yards, running broad jump, running high jump and 440 yards relay (110 yards for each runner on the respective teams entered). There is no fee for entries, which may be made on the grounds. Beautiful certificates, emblematic of the championships in the various events will be presented to first, second and third. The program is scheduled to start at 1:30 sharp.

Arrangements have been made for the famous "Eskimo Girls" of Edmonton, to stage a basketball game on the grounds, with a carefully selected Y.W.C.A. All-Star team of Edmonton, as opponents. The Eskimo Girls are second only to the world champion Grads, and some of the Gradients, second-stringers for Percy Page's wonder team, will be on the All-Star line-up.

The Eskimo Girls are intermediate champions of Alberta, winning three out of five games from the Gradients, for the northern championship, and then defeating the southern champions, the Calgary Chinook Girls, by scores of 55 to 25 and 49 to 23 in home-and-home games.

Bill Pullaby, probably the best known basketball player in northern Alberta, will accompany the team, and will handle the whistle, and a number of Edmonton basketball fans have expressed their intention of being here for the day.

As a curtain-raiser to the above game, a team of Wetsaskiwin girls will tackle the hoop experts from Greyson, and "it is said, by the way, that the lassies from the east have a pretty nice aggregation. In any event, there's bound to be oodles of excitement."

And even that's not all. Up in Edmonton the girls themselves play baseball (not only the softball game but also the brand that Pete Bear and his cohorts indulge in every summer) and the visiting femininity from the capital city will punish the pill, with players from the Edmonton City League appearing on the line-ups.

The Sports Association and Ladies' Athletic Club this year will make every effort to present the public with a highly diversified program of athletic events, and if these efforts are appreciated by the public there should be a bumper crowd at the park on the holiday.

WHY NOT PLAY FAIR  
WITH OTHER DRIVERS

A correspondent from Royal Park  
writes the Observer as follows:

Did you ever stop to think what the  
dimmers were put on your car for? If  
so, why don't you use them?

About 75% of the car drivers in  
Vegreville and the neighboring towns  
and districts will flash their cars at  
night with glaring lights at a speed  
of 30 miles an hour. It takes only a  
touch of the finger or foot (depending  
on the car one is driving), to tilt  
the lights and one has exactly as good  
a light bright or dim, only tilted so  
that it does not affect the other driver's  
eyes. No more current is consumed  
in changing lights from bright to  
dim.

Yet most drivers sit behind the  
wheel like a block of wood and curse  
the other man, without trying to give  
him a lead in dimming the lights, off  
and on, in the hope that they may be  
decent enough to do the same.

Drivers can use both their hands  
and their dimmers and if they are  
reasonably courteous, your neighbor  
will be the same. A few nights ago  
I was coming from Lavo to Vegre-  
ville and met 40 cars on the way. I  
put on the dimmer for every car I met  
but not a single driver did the same  
to me. From Vegreville to Mundare,  
I met 46 cars and put on the dimmer  
for all of them and only two respond-  
ed. These two drivers were real  
gentlemen; the others, you can place  
for yourself. We all appreciate these

little courtesy, so why not extend  
them to others?

The other night, I met six cars in  
quick succession and I had to stop  
until they passed, owing to the glare  
lights. My eyesight is perfectly good  
but I take no chances of running into  
the ditch in cases like that. In my  
opinion the A.P.P. might be more ac-  
tive in checking up glare lights. In  
the cities like Edmonton, one gets into  
trouble at once with the police if he  
goes ahead with glare lights; not be-  
cause the citizens are any better than  
ours, but because they have either  
paid fines or used their heads to avoid  
paying them. I suggest to the A.P.P.  
that they watch those reckless speed  
and light artists and make an example  
of a few of them.

Play safe; slow up and use your  
dimmer at night.—Ex.

The above appears equally well to  
Wetaskiwin district.

## SPRING MEDICINE

There is a tradition that when  
spring comes, we require some spring  
medicine to purge our bodies of the  
winter poisons. In the days of the  
early settlers in Canada, winter did  
mean misery and sickness, much of  
which disappeared with the com-  
ing of spring. The sickness associated  
with winter, among the pioneers, was  
largely due to their poor diet. Salted  
meats were their chief food, and  
there was a lack of vegetables and  
fruits. In addition, they lived closely  
crowded together for the sake of  
warmth.

In our times, our diet in winter can  
be sufficiently varied because modern  
methods of preserving food, and up-  
to-date means of transportation allow  
us to secure and use fresh vegetables  
and fruits, or properly preserved veg-  
etables and fruits all winter. Modern  
heating systems have made it possible  
for us to be comfortable during the  
winter, and there is no reason why  
we should not live and work in ven-  
tilated rooms and so secure the fresh air  
we need.

There is no reason to take spring  
medicine. There is reason, however,  
to look forward to spring and to  
make use of the advantages which  
that season brings. Compared with  
winter, this means that in the spring  
we can be out in the fresh air and  
sunshine. The only spring tonic we  
need is Nature's tonic which costs  
nothing and so can be taken by rich  
and poor, old and young, without a  
thought of expense. Nature's tonic is  
made up of fresh air and sunshine. It  
is ours for the taking. We must do  
the taking, however, if we are to  
benefit by it. The sunshine out of  
doors which makes the flowers and the  
grass grow will not do us any good  
unless we get out into it and take  
our share of it.

Personal health cannot be bought  
by money; it is not to be found as  
medicine in a bottle. To secure health  
and to keep it, we must spend our  
time. We must take time to secure  
the spring tonic properly known as  
Nature's fresh air and sunshine. In  
Nature's fresh air and sunshine. In  
Questions, concerning health, ad-  
dressed to the Canadian Medical As-  
sociation, 184 College Street, Toronto,  
will be answered personally by corre-  
spondence.

## A GOOD LISTENER

(The Outlook)

What makes a good listener? Most  
of us have friends who are vivacious  
and interesting talkers, but the mo-  
ment they have told their story and  
we begin ours we are chagrined to  
find that they are simply not listen-  
ing. They are all awake when they  
are themselves are talking, but they  
are decidedly wet blankets when we  
begin our innings. The good listener  
will be interested in what the speaker  
is saying. If he is counting his sheep,  
or numbering his swine, or getting his  
lessons ready for next week, or won-  
dering how in the world Jones could  
afford a Studebaker, if she is esti-  
mating how much Mrs. Clark paid  
for her new spring hat, or Mrs.  
Thompson for her new lawn coat, it  
is certain that the sermon will not  
be able to poke even its nose in.

Then the good listener will not be  
too critical. Did you ever hear re-  
marks like these: "Say, isn't Dr.  
Jones' suit getting desperately shabby—  
surely fail to resist in addition to  
by? I wonder why he doesn't dress  
decently?" "Wasn't the preacher nerv-  
ous this morning? I wish he would  
not saw the air so with his hands, it  
makes me so dizzy." "Well, I never  
knew a man to make so many mistakes  
in grammar. He certainly ought  
to prepare his sermons better than he  
does." "View! View! that a corker!"  
He must have preached for all of fifty  
minutes. "Well, I liked that sermon.  
It certainly hit off Sam Simmons' case  
to a hair. I hope it does him good."  
Did you ever hear these criticisms?  
Did you ever make them?

Blackhawk's  
Rattlesnake Oil  
INDIAN LINIMENT  
\$3.00 Value for \$1.00

This wonderful pain killer has  
been used for generations in cases of  
Rheumatism, Lumbago, Neuralgia,  
Sciatica, Headaches, Toothaches,  
etc.

For a limited time we will sell  
bottles of Blackhawk's (Rattlesnake  
Oil) Indian Liniment and a full-size  
bottle of Blackhawk's 4 Day  
Wonders, the famous Pain Reliever  
and Spring Tonic Tablets.

All three for \$1.00

You have seen it demonstrated  
at the Western Fairs.

Endorsed by experts everywhere.

## COMMUNICATION

(We do not necessarily endorse the  
sentiments advanced by this or any  
other correspondent under this head-  
ing.—Ed.)

To the Editor:

Dear Sir:

FOR THE SAKE OF THE BOYS

AND GIRLS

As one who has the welfare of all  
school children (both public and high)  
at heart, I feel constrained to respec-  
tfully draw your attention to the fol-  
lowing situation today confronting all  
thinking residents of this city:

Years ago the cigarette manufactur-  
ers inaugurated a definite policy in re-  
gard to their advertising, having as an  
objective the ensnaring of teen age  
boys and girls, as well as non-  
smoking adults, into the insidious and  
health destroying habit of cigarette  
smoking. The problem that confronted  
these tobacco interests was to gradu-  
ally "educate" the public to tobacco,  
until it would accept unmoved the  
sight of children of both sexes, as  
well as women, smoking.

They have moved cautiously, yet  
steadily, forward, step by step. In  
this foul business, until today they  
have arrived at a partial fulfillment of  
their program, which bids fair to be  
complete ere long. They have reached  
the point where they are daily oblig-  
ing the children of this city to read  
and absorb huge advertisements de-  
picting men, youths, women and  
young girls smoking—supposedly in  
keen and wholesome enjoyment of  
their cigarettes. Likewise these ads  
show the emphatic endorsement of  
the cigarette as a legitimate and nat-  
ural source of pleasure, health, etc.

The smartness of the smokers de-  
picted—the business noses—the air  
of well being and zest—the apparent  
purity and beauty of the faces shown  
—together with an invariable back-  
ground of wealth, grace and culture—  
all these are intended to induce in the  
mind of the reader the suggestion that  
he, or she, has but to commence to  
smoke and will thereby automatically  
step into this atmosphere of ease and  
luxury. It cannot be disputed that the  
up-to-date cigarette ad does "put  
across" most effectively these erro-  
neous and harmful impressions.

The suggestion is also conveyed  
that to be "a good sport" and "a reg-  
ular fellow" youth of both sexes must  
smoke. It would be impossible to over-  
estimate the damage done by this  
phase of the advertising. The impres-  
sions made on young minds by these  
artfully designed and skillfully exe-  
cuted posters, shop-window displays,  
etc., are indelibly permanent and can  
scarcely fail to result in addiction to  
the cigarette habit sooner or later—  
usually sooner, alas.

In Alberta we have not yet experi-  
enced to the full the brazen effrontery  
of these great corporations seeking to  
enslave all, sparing none—not even  
your own child. In China the slogan  
of the cigarette manufacturer today  
is: "A cigarette is the result of every  
person over ten years of age." They  
have almost succeeded in accomplish-  
ing this, too. Just over the line that  
marks the boundary between Canada  
and the U.S.A., in some of the large  
western cities, billboards have been  
erected depicting young girls of ten-  
der years reclining in the arms of sal-  
lers, or other men—both smoking, of  
course. In the state of Michigan free  
distribution of "sample" cigarettes to  
the student bodies of universities are  
reported. They then secure, where  
possible, the opinions of prominent  
colleagues and publish these as adver-  
tising material. Instances of this na-  
ture could be recounted almost in-  
lessly.

Do we but stand passive, how long  
is it going to be until the children of  
Wetaskiwin are similarly tempted?  
One of the large cigarette companies  
announces that this year it, alone, is  
going to spend \$112,000,000 in advertis-  
ing its brand. Another one boasts that  
today there are as many women as  
there were male addicts 20 years ago.

To whom is all this aggressive ad-  
vertising addressed? Most emphatically  
not to the one who has already  
yielded to this appetite, is it not rather  
to the boys and girls of 12 or 13  
years of age upwards? How else is the  
crop of over 8000 children per day to  
be maintained and increased? (Those  
figures indicate adequately the rate of  
new cigarette addiction daily for the  
U.S.A. last year this year shows a  
large increase so far, over that  
amount). The cigarette manufacturers  
rely on their advertising to increase  
this daily crop of new child victims.

The objective at the present time on  
the part of the cigarette companies is  
clearly not advertising for the purpose  
of competition with one another.  
Rather it is a co-operative campaign  
to "educate" the public mind; to habi-  
tuate people to the sight of women  
and children smoking, until we accept  
without protest this menace to the  
health, morals and prosperity of our  
citizens of tomorrow.

Prosperity: Last year the United  
States spent \$3,600,000 on tobacco.  
This amounts to \$30 for every man,  
woman and child in that country. The  
figures for Canada are not obtainable,  
but will be fully as high per capita.

The policy of the cigarette manu-  
facturers towards the public may best  
be summed up in the words of Pope:  
"Vice is a monster of such frightful  
mien,

That to be despised it needs but to  
be seen,

But seen too oft, familiar with its  
face,

We first endure, then pity, then em-  
brace."

It is a noteworthy fact that none of  
the better class business houses in  
this city allow their windows or build-  
ings to be used as a medium to entice  
our boys and girls to become cigarette  
addicts. Pool rooms, Chinese restau-  
rants and similar institutions form the  
background and a fitting one—for this  
dangerous and pernicious dissemina-  
tion of corrupt advertising. Shall we  
stand aside with folded hands and al-  
low the owners of these places to con-  
tinue to exploit the boys and girls of  
Wetaskiwin? To continue to attack  
their purity and morals for the sake  
of the profits that can be made out of  
them. I pray God not.

The remedy is in the hands of the  
residents and the parents. The city  
council has power to regulate all bil-  
board and shop-window advertising,  
in-so-far as it bears on public morals.  
This issue does. We must not stop at  
the outer signs and posters. These  
window displays are even more of a  
menace. We want the cigarettes taken  
out of the shop windows and kept out.  
While it will take provincial, or  
even Dominion, legislation to rectify  
the situation as regards the newspa-  
pers and magazines, we can work a  
vast local improvement by cleaning  
up the points touched upon. Let us see  
that the proper steps are taken at  
once.

Thanking you for your kind consid-  
eration, I am

Yours very respectfully,  
STANLEY H. CHURCHILL,  
Vice-Principal King Edward School.

## APPEARANCES COUNT

An old line in the copy books read  
"Appearances are Deceiving." How-  
ever much truth there may be in the  
saying it is equally true that "Ap-  
pearance Counts."

We have plate glass windows in  
stores and cunningly concealed light-  
ing devices to throw just the right in-  
tensity of illumination on the fabrics  
displayed. We have automobiles in  
all the shades of the color card; type-  
writers and alarm clocks in tints to  
match room furnishings; period styles  
in radio cabinets; cafeterias with mar-  
bletopped counters, and lithographed  
wrappers on packages of soda crack-  
ers. Manufacturers, distributors, re-  
tailers of today, who do not pay at-  
tention to appearances are left behind  
in the procession.

But communities seem slow about  
taking the lesson to heart. We still  
have eye-searing buildings, crude bil-

boards, unpainted fences, uneven  
lawns, stores with old-fashioned fronts  
and houses allowed to remain in dis-  
repair. We have unattractive sur-  
roundings, lots filled with discarded  
automobiles, shacks on business  
streets, unkempt alleys, residential  
districts where flowers and shrubbery  
are unknown, vacant lots covered with  
weeds in summer—a hundred and one  
different detractors of appearance  
scattered throughout our towns, and  
the new wonder why more folks are  
not attracted to come and live here.  
The community of today which is

growing faster is the one which has  
caught the modern spirit of paying  
attention. Paint, cement, ornamental  
finishes, landscaping, even ordinary  
attention to appearances are assets  
to a community which wants to grow.  
The uneven sidewalk, the jog in the  
street, the low ground where water  
lies for even an hour after rain—these  
are as much out of date and as great  
a barrier to selling a community to  
prospective residents as cotton un-  
dresses that baffle when rolled up,  
automobiles modelled on the lines of  
1914, or bathing suits covered with

flounces would be an advertisement of  
failure in the stocks of dealers who  
might be rash enough to offer them.

Styles today call for smartness, the  
suggestion of efficiency, the touch of  
sophistication—how many commu-  
nities can, in their appearance, meet  
these requirements?

The Council of the town of Camrose  
has granted a free site on which will  
be erected an Old People's Home,  
which will be conducted under the  
auspices of the Norwegian Lutheran  
Church.

## Riding abreast of the times

You expect more from your motor car today than you did ten  
years ago. And you get it. Greater speed, smoother power  
and more responsive performance are common to modern cars  
as a result of the development of higher speed, higher com-  
pression motors.

These improved engines demand a better oil—fuller-bodied,  
with greater resistance to heat and wear.

To ensure a better motor oil, Imperial Oil Limited goes all  
the way to Peru for the crude from which to make Marvelube.  
Marvelube is made from a base that is rich in all the qualities  
necessary for better lubrication of the modern motor. It is  
today the oil standard for high-speed motors from coast to  
coast.

Marvelube is preferred by over half a million motorists in  
Canada and is the choice of aircraft operators because of its  
superior lubricating qualities.

There is a grade of Marvelube refined to meet exactly the  
specifications of your car, truck or tractor. Consult the  
Marvelube Chart at Imperial Oil stations and dealers.

Marvelube  
From far Peru comes a better crude  
to make a better motor oil

## The Week at Ottawa

(By Wm. Irvine, M.P.)

After two votes of want-of-confidence moved by the Conservatives against the Postmaster General in which the Government was sustained by a party vote, and after the suspending of Mr. Griffith, a New Brunswick Postmaster who had been a cause of much criticism among the Minister, the estimates began to move slowly. The Minister's position having thus been vindicated rightly or wrongly by a vote of the House, and

slonors. When it reports to the House there is sure to be a lengthy discussion on these difficult and complicated matters of interest. The Committee on Elections is busy revising the Election Act with a view to eliminating the possibilities of corruption, or at least to so change the Act that those so disposed to practice corruption will have to find a new way of doing it.

This Committee has not yet reported. It is understood, however, that they have decided on some points. For instance, General Biggar, who was Chief Electoral Officer for some time, suggested to the Committee that what is called "closed lists" should be adopted. That is, that in urban areas there should be an annual revision of the voters' list, but as soon as the writs for an election have been issued, the lists shall be closed and anyone not on the list at that time would not be able to vote. The Committee decided against this suggestion on the ground that people would not take the trouble to attend to putting their names on the list when there was no election in sight.

Compulsory voting has also been considered by the election committee. This suggestion did not meet with favor and was voted down. Probably these matters will be moved again when the revised Act comes before Parliament.

One change in the Election Act has been tacitly endorsed by the Committee and will very likely constitute one of the amendments to the Act. In the past election officials have been appointed under party patronage to a very great extent. Under that practice such officials, while expected to keep within the provisions of the Act, were not responsible to anyone, and to no one responsible for them. The result was that when the Act was violated, before a parliamentary enquiry could be held, the culprits had succeeded in destroying the evidence.

The amendment now proposed is to give the Chief Electoral Officer full authority to appoint all the election officials and to hold him responsible for the proper administration of the Act. If such powers are given to the Chief Officer, it is conceivable that the mal-practices which occurred in 1925 might not recur.

A system of enumeration for urban areas is being considered. In conjunction therewith will be a provision that writs for elections will be issued two months prior to election day, and three weeks of that period will be allowed for revision of lists.

Mr. George Coote of Macleod took the Minister of Finance to task during the discussion on the budget resolution and charged that he had failed to implement his promise given to the House in 1926 when the Minister removed the excise tax of 5% from cars which were 50% produced in Canada, but left it on cars imported from the United States. His statement at that time clearly implied that if the manufacturers of automobiles did not live up to their promise to give the consumers of autos the benefit of this reduction, he would remove the excise tax on all cars.

Mr. Robb's attitude was that the case had not been proven. He said he had instructed the Advisory Board to make a thorough investigation into the matter to determine whether the manufacturers had been taking advantage of removal of the tax. Mr. Coote asked him to promise that if the case were proven, the Government would remove the tax, but Mr. Robb said he would make no

## For Stiff and Aching Joints

Stiff joints caused by sprains or rheumatism can be relieved immediately by Absorbine. Just rub a few drops well into the affected parts with the fingers and note its delightfully soothing and invigorating effect.

For aches and pains

promises as to what action, if any, he would take.

A resolution now before parliament providing for readjustment of pay in connection with certain postal employees who took part in the Winnipeg strike is causing a deal of discussion. The resolution upon which a bill will subsequently be based was worded ambiguously and gives rise to certain misunderstandings. The object of the bill apparently is to provide money with which to pay certain employees for services rendered. The difficulty arose because the Civil Service Act provides that all employees must begin so to speak at the bottom and at the minimum of pay. Many of the strikers who were taken on after the strike were old experienced men and were immediately given the important positions in the office, although rated as to salary, etc., down at the bottom. It is now proposed to pay these men the difference between the amount they received according to their rating on the basis of the Civil Service Act, and that which they should have received for the work they actually were called upon to do. It is unlikely that there will be any serious objection to this bill when the Postmaster General makes it clear exactly what is proposed.

P. C. PETERSEN WRITES  
MORE OF HIS TRAVELS

Dear Friends:

To let you know that we have not forgotten you, we will now continue to describe our trip eastward. We left Harry and Bruce the 28th of July, came through Spokane and camped some distance east of there. That was the hottest night we had on our trip. On the 27th we came over the Fourth of July Summit, 3172 feet above sea level. Next we came through Coeur d'Alene, Idaho. Some distance east we came through a lead, zinc and copper smelting works, supposed to be one of the largest in the world, in which 1500 men were employed. Next we came to the Bitterroot Mountains, crossed Lookout Pass, 4788 feet. That was a very pretty drive, and there we entered Montana. We camped at Saltese, near McManus River. July 28th we crossed the Camel's Hump, 3561 feet, this is a part of the Rockies. There we had about 75 miles of very poor road, we followed the Missoula River most of the way. That night we camped two miles east of French, near a farmer whose name was Cotter, who told us a lot about that part of the country, which was settled by French emigrants years ago, and the French are still in the majority amongst the settlers. Next we came to Missoula, which is quite a large place. We found out that it was all dry farming there, and some ranching. That night we camped at Drummond, Mont. Drummond itself is not much of a place, but we got acquainted with some tourists, we played the national game of Canada with them, or rather, the national game which we played in and around Wetaskiwin, "500." They were heading for the National Yellowstone Park, the same as we were. We bid them goodbye in the morning, with hopes of seeing them again. The following few days we saw some very funny things. For one thing, we saw people haul hay on sleighs, around the 1st of August, just why that was done was not clear to us, for there was no snow on the ground, and the only explanation we could make for it was that the ground was too soft and would not hold up the wagons. The next place of interest was Deer Lodge. There we found the Montana State Penitentiary. It cost 25¢ a person to enter, so along with others, we went through that place accompanied by a guard. We went from place to place, and were instructed not to talk to any of the prisoners or stare at them. If it were not for the confinement and prison walls, it would not be a bad place to live, but the thought of going through those iron doors and staying inside of them for years, or perhaps for life, would make the cold chills run down your back. While everything is spick and span, clean and tidy, still those walls are horrible to look at, with guards walking back and forth with loaded rifles. We saw all departments, including kitchen, mess hall, chapel, workshops and cells. We were entertained by the prison band, and finally, we left the stone walls behind us. The next place of interest was Butte, Montana, one of the oldest cities in the state. This is strictly a mining town, and mostly copper mining. They go to a depth of from 1,000 to 3,000 feet, about 10,000 miners are employed. Butte itself has an elevation of 6,850 feet. The following day we got to Bozeman. We camped just east of the Galatin Forest Reserve, came through Bozeman Tunnel, where we found a monument to Lewis and Clark, who travelled through there in

1803. That is rather a poor looking country, it seems all land there is very badly infested with stink weed. We entered the Park by way of Gardiner from the north. As there are so many wonders to be seen there, we will have to write about them in our next letter, otherwise our letter would be too long and we do not want to tire you out.

In conclusion, we want to say that spring is very backward, but the lilacs are in bloom. Tonight we have a thunderstorm. Will tell you more in our next letter.

We remain, sincerely yours,  
P. C. Petersen and Family.

LIBERAL CHIEFTAIN RIDICULES PARLEYS FOR DISARMAMENT

London, May 10.—"Are you preparing for war, or are you resting on peace?"

With a dramatic gesture, Rt. Hon. David Lloyd George, Liberal leader, last night put this question to 3,000 women in Albert Hall, and to 20,000 other women who heard his speech by relay in a dozen other towns.

That, he said, was the question the women voter must force governments to answer. He spoke of disarmament as one of the most urgent issues before the women of today. What the world needed, he declared, was not pacts and covenants and treaties, but disarmament.

"We have the covenants of the League of Nations, treaties of Locarno and the Kellogg pact, that banishes war altogether—on paper. At the same time, we have more formidable armies in Europe at the present time than we had in 1914. We have in many respects more destructive navies; we certainly have more destructive aircraft."

The Liberal chieftain was contemptuous of the League of Nations preparatory disarmament commission.

"There is a disarmament commission which is being sitting at Geneva for a year," he exclaimed, "as laughter rippled over the hall, "a stupid farce, paralyzed, dragging its limbs through the corridors and antirooms of Geneva, doing nothing, discussing all kinds of things, but never getting to the real issue."

"Are you going to depend on armaments, or force, or on judgment?" he said sharply. "The women should take it up, go to their representatives on the commission and ask them, 'Are you really sweeping the room or simply creating dust?'"

LACOMBE & NORTHWESTERN TO BE EXTENDED TO THORSBY

Awarding of the contract for construction of the Lacombe & Northwestern line of the C.P.R. to a point twenty miles northwest of the present terminus at Breton will take the extension to Thorsby, according to officials in this city. This is in the Telfordville district and is on the ultimate route to Leduc.

During the past fall and spring, workmen were engaged in cutting out the right of way and found it heavily timbered in some sections. Now that that phase of operations has been practically completed, no

## For Clear-thinking and Quick-acting—SHREDDED WHEAT

time will be lost in advancing the grading along this line.

Officials feel that a large part of the summer season will be required for grading of this 20-mile strip, which, however, forms an important extension of this line now heading for Edmonton by way of Leduc.

Work has also commenced on the C.P.R. line from Willingdon to Veg-

revilla, a distance of 25 miles. The preliminary work on this extension was started last fall and it is the intention of construction officials to have it completed as early as possible this season.—Journal.

## Neighborhood NEWS

### HILLSIDE

Edward Lentz and James Hoskins of Wetaskiwin, were Sunday visitors at their homes here.

Mr. and Mrs. L. E. Marr spent Saturday in the city.

The Junior U.F.A. met in the school house on Friday evening. There was a good attendance and a number of senior members present. Miss Archibald, director for the Junior work, gave an interesting talk on the aims of the organization and urged the local to send at least two delegates to the Junior Conference to be held in June. Mrs. Ross of Millet, gave a short address on young people's work, and asked the parents to co-operate with the Juniors. This was followed by a few remarks from H. G. Young. A short business meeting with the election of delegates was then in order. Community singing and light refreshments brought a pleasant evening to a close.

Miss Beth Howes of Portia Bella, spent the weekend with her mother. A number from the district attended the I.O.O.F. service in Millet on Sunday.

Mrs. H. G. Young, who is a patient in the Wetaskiwin hospital, is recovering nicely from her recent illness and expects to be home shortly.

Hillside school children are busy making their gardens and preparing for the fair in Millet this fall.

Use The Times Want Ad. columns.

### VERDUN U.F.A.

Although in the midst of spring work, a fair number attended the regular monthly meeting of the Verdun U.F.A. held on Wednesday, May 8th. A general discussion took place regarding the various methods of tillage and moisture, and weed control. Helpful suggestions were made by members who told of their experiences.

### UNDERPRIVILEGED

(Continued from Page 1)  
wishes done. If you wished to influence a person you would not all speak at once to him.

I hope, now, I have made it clear that the greatest work that can be done for the underprivileged child will be the work which our mind can do for another. If then, as an individual, we have not the social training, nor the social mind thus to come in contact beneficially with our fellow men who need such resuscitating, we can get together and employ someone who can do just such things. Just a word then in closing. I must not then be understood that I am suggesting that all institutions be eliminated. Some institutions have a place in social work. The most essential appears to me to be the home or training school for mental defectives of the lowest order. Any of you who have visited the Provincial Training School at Red Deer and have seen the work that Dr. McAllister is doing, (that is, have seen the children before admission and after) will appreciate what can be done in such cases. His school is "just a great big clinic for the care and treatment of such cases."

Another essential is a temporary home for children, where they can be made physically fit, and where they can be mentally diagnosed and properly adjusted in society. The responsibility resting upon us then as private citizens is first our interest, the interest that each social mind ought to have in the welfare of our fellow beings, and if we have not this ourselves, let us get together and put a specialist on the work. A kind loving mother of good ordinary common-

sense, can do a great deal towards treating her own children for ordinary sicknesses, but when it comes to extraordinary cases, then she calls in a more highly trained specialist.

We can all individually and personally do a great deal of social work if we are interested in it, just as a mother can, but when we come to cases that are too deep for us we ought to call in the help and advice of a specialist in such cases.

Each case worker should endeavor to find out the particular line on which a child will develop with the least endeavor. For some the outlet will be through their mental endeavors; for others, the outlet will be in physical lines, and in every case a child should be adjusted to that outlet in which they can more happily

and easily make progress. Right here let me again emphasize the thing that is receiving the emphasis today, and that is the special value of good hard work in any line. If a child's outlet is in things mental they should be taught to use their minds diligently. If the outlet is in physical lines, they should be taught to do good hard physical labor, and be trained up to it. In these days of high specialization in every line we must specialize with our head and with our hands, and any child who is going to make good must be taught to put their best into it and to develop that best to the highest degree of efficiency. I hope, therefore, that if I have not confined myself specifically to the care of any particular child, I have laid down some working principles

sufficiently clear to make the handling of each and every case apparent.

On behalf of the Kiwanis Club, President, Grant (tendered Rev. R. C. McLeod a hearty vote of thanks for his excellent address and hoped that he would again visit us.

### PONOKA PLANTS OVER 200 TREES

Ponoka, May 13.—Members of the Ponoka Horticultural society have undertaken the beautifying of boulevards in the residential district of the town. To this end some 200 trees are being planted this year, and it is planned to continue with the improvements each succeeding season. The decided improvement to date amply repays the workers for their efforts.

## a Smashing Public Conviction behind the big Swing to ESSEX THE CHALLENGER

Hear the radio program of the "Essex Challenger" Every Friday Evening

The smashing conviction of greatest value which Essex the Challenger gives on sight is borne out in Performance of brilliant range and smoothness, and a wealth of fine car detail, never before associated with this price class.

Its smooth and dashing power; its large, roomy, fine bodies; its 76 outstanding new features; its Speed challenging up to 70 miles an hour; with Reliability that permits 60 miles an hour for hour after hour; and Economy of 18 to 20 miles per gallon and upward—all these make Essex a formidable challenger of any car the market offers.

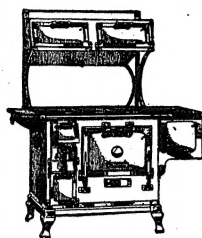

A wide choice of colors at no extra cost. The variety is so great you have almost individual distinction.

**FOURTH BRITISH OPEN GOLF TITILE FOR WALTER HAGEN**  
Muirfield, Scotland, May 10.—For the fourth time within half a dozen years, Walter Hagen, danger American golfer, looks down from the heights of the British open championship. By scoring a pair of 75's today, the sleek-haired master of golf-in-the-pinch, climbed from his second position of yesterday to the premier position among the sixty entrants, with a card of 292 for the 72-hole title play. In 1922, 1924 and 1928 the Yankee captured his other three championships.

**STETTLER GOLF TOWNSHIP**  
The third annual golf tournament of Stettler Golf Club will be held at

**Found Them Wonderful for Constipation**  
Mrs. John D. Behrens, Onion Lake, Sask., writes:—"I have been troubled with constipation ever since I can remember, and have tried different kinds of medicine, but with very little effect. Reading in your Almanac I saw where

**Milburn's**  had relieved others from constipation so I decided to give them a trial. "I got a few pills and they did me a world of good; I have not been constipated over since I began taking them, and I can now say I feel fine again."

Price 25c a vial at all druggists and dealers, or mailed direct on receipt of 15c. by The E. Milburn Co., Ltd., Toronto, Ont.

Stettler on Friday and Saturday, May 24th and 25th. The course has been overhauled and a new clubhouse erected for the accommodation of visiting and local players. Come, and enjoy two days' good golf at a part of season. Good price list, including special prices for ladies. Address C. L. Willis, Tournament Executive.

## CLAIM DISCOVERY NEW EXPLOSIVE MORE EFFECTIVE THAN ANY KNOWN

Toronto, May 13.—The Mail and Empire publishes a dispatch from Kingston, Ont., stating:

"The secret of a new explosive, said to be more effective than any previously known to science, is being zealously guarded by the department of national defence.

"After extensive trials at Potawawa camp, artillery officials here refused absolutely to disclose details of the discovery. The trials at the artillery camp were witnessed by experts from the department of national defence and experts in the manufacture of explosives.

"The officials absolutely declined to give the name of the new substance. Nor would they say to what particular use it might be put. They refused to give the name of the discoverer. It was indicated that it was the work of a Canadian."

## LACOMBE BOY MISSING FOR FIVE WHOLE DAYS

Lacombe, May 13.—Sunday sees much apprehension on the part of the people of Lacombe, in regard to the disappearance of Leon, 14-year-old son of Mr. and Mrs. Leigh Dunphy, who left his home Wednesday without leaving a trace of his movements.

A note was the only direct evidence of his intentions, in which he spoke of committing suicide. This note caused little worry at the time, everyone thinking it was left more for dramatic effect than anything else.

After five days without the least authentic word of his movements forthcoming, the watching and waiting has given place to grave foreboding. Many claim that it is just possible the youth may have meant his note literally and the people of the town can talk of little else than this tragedy, which may easily have been prevented.

The case is one of the strangest, and saddest that Lacombe has ever witnessed. In his farewell note Leon gave the reason for his disappearance as being on account of his not wishing to appear in court to answer a charge of theft of some wire that he and a chum had taken from an old shed on his father's property.

The boys, looking for junk, saw this lot of wire and took it away and made an effort to sell it, but upon being told the value of their find, gave the wire back to the rightful owners.

One lightning rod was chopped up by the boys with a desire to see how it was constructed, and it was over this that the boys were to appear in juvenile court.

Leon was one of the best liked and most respected boys in Lacombe, not one word has been uttered against him. Bright in school, pleasant to talk to, a reader, and one not given to the usual roughness found so often in boys of his age. He is sadly missed in town by all who knew him, and should he not be found soon, it is felt that something in the nature of a revolt will be made against those, rightly or wrongly, accused of being instrumental in his disappearance.

Leon was one of the best liked and most respected boys in Lacombe, not one word has been uttered against him. Bright in school, pleasant to talk to, a reader, and one not given to the usual roughness found so often in boys of his age. He is sadly missed in town by all who knew him, and should he not be found soon, it is felt that something in the nature of a revolt will be made against those, rightly or wrongly, accused of being instrumental in his disappearance.

Lacombe, May 14.—Word has been received by Mr. Dunphy, father of Leon Dunphy, the missing Lacombe boy, that he is safe at his grandparents' home in Portland, Oregon. How the lad got there without money or without anyone seeing him is the chief puzzle.

Mr. Dunphy owned the Angus Theatre for several years, and Mr. and Mrs. Dunphy are former residents of Wetaskiwin.

## Provincial Weekly News Bulletin

(Issued by Publicity Commissioner, Government of Alberta, Edmonton, Supervisors Named in Weed Campaign)

In line with the policy of the Alberta government to promote the eradication and control of noxious weeds, twenty field supervisors will be stationed at various points throughout the province, it is announced by Hon. George Hoadley, Minister of Agriculture. These men will act in conjunction with municipal councils and local weed inspectors in an intensive educational campaign directed against the further spread of noxious weeds. While they will be vested with authority to enforce the provisions of the Noxious Weeds Act, an attempt will be made in every case to secure the desired results through education and

co-operation with the farmers in the districts in which they are stationed. Of the twenty men selected for this important work, seventeen have already been appointed as follows: Berwyn, R. E. English; Grande Prairie, W. E. Taiton; Evansburg, Gordon Short; Edmonton, Frank Stevens; Wainwright, J. R. Ford; Camrose, T. H. Taylor; Leduc, B. J. Whitney; Red Deer, Donald Cameron; Stettin, Ken Walker; Calgary, W. G. Lawrie; Gleichen, S. J. Ewing; Jenner, W. J. Jacobs; Smoky Lake, J. D. Foster; Lethbridge, Geo. A. Ingram; Claresholm, L. E. Kindt; Warner, J. P. Lawrie; Raymond, W. G. Smith.

In addition to the above mentioned field supervisors, some twenty inspectors

have been appointed by the Minister of Agriculture to carry on this work in local improvement districts throughout the province.

**Make Early Start on Highway Program**

Work will be started within the next few days on a number of important road building projects for which contracts have just been awarded by the Alberta Department of Public Works.

**Oil Production Sets New Record**

Establishing a new high mark in the history of the province, oil production delivered to the refineries from wells in the Turner Valley field during the month of April shows an increase of 12,500 barrels over that of the preceding month, the gain being largely contributed by an increased flow from No. 1, Royalty No. 8, Dalhousie No. 1 and Okla No. 1 wells.

**Live Stock Pool Plans Sign-Up Campaign**

An intensive sign-up campaign from June 1 to July 21, has been arranged by the directors of the Alberta Live Stock Pool in connection with the second series contract. The new contract is for a five year period with a renewal clause at the end of that time and makes provision for share capital at \$5 per share to bear interest at 6 per cent for the acquiring of facilities and the carrying on of the business of the pool.

**Grain Commission to Hold Alberta Sittings**

The Royal Saskatchewan Grain Inquiry Commission, which has been holding sessions in the province and at the Pacific coast will sit in a number of points in Alberta during the next month. Evidence will be taken by the commission at Edmonton, May 20 to 24; Camrose, May 27-28; Stettin, May 29-30; Calgary, June 3 to 7; Claresholm, June 10-11; Lethbridge, June 12-13 and Medicine Hat, June 14.

**UNITED STATES IS NOT ALTERING DUTIES ON WHEAT**

Washington, May 8. — The new United States tariff bill was introduced in the house today.

Among the detailed features of the new bill compared with existing law are:

The duty on wheat, rye, barley and oats is unchanged; buckwheat is increased from 10 to 25 cents.

The prevailing duty on logs is cut out.

Lumber of cedar and the like is now free, but is given a 25 per cent ad valorem duty in the bill.

Maple and birch lumber raised from free at present to 15 cents ad valorem.

Shingles raised from free to 25 per cent ad valorem.

Butter is left at its present rate of 12 cents per pound, but milk is increased from 2 1/2 to 5 cents per gallon and cream from 20 to 45 cents per gallon.

Cheese is increased from 5 to 7 per cent. The minimum is now 25 cents ad valorem and now is to be 35 per cent ad valorem.

Live sheep, lambs and goats raised from \$2 per head to \$3 per head. Mutton is raised from 2 1/2 cents per pound to 5 and other fresh meats raised.

Bacon, ham and shoulders raised from 2 cents to 3 1/2 and lard from 1 to 3 cents. Swine from one half cent to 2; eggs in the shell are raised from 3 cents per dozen to 10.

Sugar, wool rate, increased to 3 from 2.20. Cement from free to 8 cents per ton. Gypsum remains free. Hides and leather left on the free list.

**HOUSE OF COMMONS SESSION WILL CONTINUE INTO JUNE**

Ottawa, Ont., May 9.—With a holiday prevailing because of Ascension day and neither summer in session, opportunity is afforded members today for sizing up the situation and forecasting the end of the session. The prognosis has varied materially. Some weeks ago it was confidentially predicted that prorogation would occur before the 24th of May, but this

**Nervous Breakdown HEART PAINED HER COULD NOT SLEEP**

Many a woman who should be strong and healthy, full of life and energy is bound by the shackles of ill-health. Some disease or constitutional disturbance has left its mark in the form of a weak heart, shattered nerves, impoverished blood and an exhausted condition of the whole system.

These troubled in this way will find in

a remedy that will supply food for the exhausted nerves, that will strengthen the weak heart and invigorate the whole system.

Miss Florence Clark, 206 Smith St., Halifax, N.S., writes:—"I am a telephone operator, and some months ago had a very bad nervous breakdown. My heart pained me a great deal, and my nerves were so bad I could not sleep at night. I tried many medicines, but did not get much relief until I started to take Milburn's Heart and Nerve Pills. I only used one box, and I just have to write and tell you how thankful I am for your wonderful remedy. I am now able to sleep soundly, and haven't any horrible pains."

Price 50c. a box at all druggists and dealers or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

idea has long since been abandoned. The opinion now is that the season will last till the middle of June but in all likelihood, conclude by then. This will be only a few days later than the one last year, though the season began two weeks later.

The budget is now disposed of save for one item, but, outside of the postal estimates and the bulk of the public works supply, all the rest of the appropriations have to be dealt with, even though the more contentious ones are out of the way. The reparations bill will be controversial, unless it be altered to pay all the awards in full, as it already provides for in the case of claims up to \$15,000.

What really is the most uncertain factor in the season are the amendments to the Grain Act. The committee has been considering them for a month and ten days ago a sub-committee was deputed to draft a report. The views are so divergent on vital points that no headway has yet been recorded.

As Mr. Bennett's western speaking tour is to begin in the latter part of June the expectation is that the session will be over by the middle of that month.

**ASSOCIATION SETTLES BIG ACREAGE HERE**

Land settlement under the auspices of the Canada Colonization association, a subsidiary of the Canadian Pacific Railway for the months January to May embraced the placing of 309 families on 48,200 acres, the purchase price of which amounted to \$1,070,249. Of these families 134 were settled in Alberta on 24,392 acres, the amount involved in the purchase of this land being approximately \$360,000.

This shows that land settlement in Alberta is booming, as more than half the acreage taken up by these settlers was acquired in this province.

The average size of the families settled here is stated by officials of the company to be five in number, which would increase the population of the province by 670 souls.

The settlers in Alberta were placed on the Canadian Pacific Railway irrigated lands east of Calgary, on privately owned land east of Red Deer, and in the vicinity of Edmonton, while a large number of these settlers were placed in the districts of Westlock, Barhead and Peace River.

For settlement on farms in 1929 the Edmonton office of this company has a pool of 200 settler-families on farms in the district receiving training with a view to taking up land, and it is expected that next year will see the record settlement that is expected during 1929 greatly eclipsed.

**FIRST FORTNIGHTLY CROP REPORT**

(Issued by Department of Agriculture, Government of Alberta, Edmonton, May 11, 1929).

Approximately seventy-five per cent of the wheat crop in the province has been seeded and steady progress is being made with the seeding of coarse grains, according to telegraphic reports received on Friday by the Department of Agriculture. A peculiar situation exists, as in the part of the province where moisture has been most abundant, spring work has in consequence been retarded to the greatest extent. A number of central and northern sections report that wheat seeding has been completed, while as a result of intermittent rains and falls of snow over the southern part of the province, not more than thirty or forty per cent of the wheat has been sown in some localities.

Moisture conditions are reported to be generally satisfactory, particularly in the south where the effects of the open fall and the light snowfall of the past winter have been largely offset by the recent precipitation. In some northern districts winds have been more than usually prevalent, and

while the soil moisture is sufficient to promote germination, further rains will be required at an early date if rapid growth is to be expected.

An increase of from five to ten per cent in the wheat acreage of the province is anticipated as compared with last year. This gain will be especially noticeable in central and northern sections, where a large amount of new land was cleared and broken in 1928 in readiness for the present year's crop. Very little difference is expected in the acreage seeded to coarse grains, except in areas where seeding of wheat has been unduly delayed.

Good stands of fall wheat and rye are reported, as these crops have come through with a negligible amount of winter killing. In a number of districts an increased acreage will be seeded to sweet clover and other forage and fodder crops.

Wheat seeding has been practically completed in the Peace River country and moisture conditions are satisfactory at the present time, although additional rains will be needed shortly to support the present excellent prospects in this section of the province, a very marked increase is noted in the acreage being seeded this season.

Owing to the abundance of feed available during the past winter, live stock generally has come through in good condition, and pastures are already showing good growth.

**LAW PENETRATES INTO FAR NORTH COUNTRY**

Headed by His Honor Judge Lucien Dubuc, a large judicial party will leave Edmonton on Tuesday, June 18, for the farthest north fringe of civilization—Aklavik—where a sitting of His Majesty's court of justice will be held.

At present there are two cases on the docket; one murder and one infanticide.

Included in the judicial party will be E. Clare Darling, barrister of Edmonton, who has been nominated by the department of justice to act as crown prosecutor, while holding briefs for the two accused, also appointed by the crown, will be Joseph A. Clarke, former mayor and alderman, and prominent barrister.

**EASTERN LINE TO REDUCE RATES ON EXPORT WHEAT**

Washington, May 10.—Falling in line with the action of Western railroads, representatives of Eastern carriers decided yesterday to apply for reduced freight rates on export wheat flour in addition to wheat in an effort to relieve the plight of the farmer.

Decision to apply the reduction to wheat flour yesterday was communicated to the Interstate Commerce Commission, along with an announcement that all grain other than wheat would be excluded from the relief measure.

Meeting recently in Washington, Eastern railway executives decided to seek reduced rates on all grain. The Western carriers followed suit, but decided the new rates should apply only to wheat and wheat flour.

Representatives of the Eastern railways met yesterday in New York with millers interested in obtaining lower rates for wheat flour and agreed to make their plan conform to that of the Western carriers.

The Interstate Commerce Commission held a conference yesterday with shippers and grain men interested in the reduced rates and heard arguments for and against the proposal.

### MILLET COW TESTING ASSOCIATION REPORT FOR YEAR 1928

171 cows in 15 herds were enrolled in the Millet Association last year. 120 cows were in milk eight months or longer and averaged 6,945 pounds of milk and 243 pounds of butterfat. Only 51 cows were milked less than eight months.

The three highest individual records of milk and butterfat were: 14,221 pounds of milk, 401.42 pounds of fat; 10,653 pounds of milk, 505.80 pounds of milk; 12,200.5 pounds of milk, 456.64 pounds of fat. The first of these was the highest individual butterfat production in any cow testing association in Alberta last year.

22 cows gave over 300 lbs. butterfat each in the twelve months January to December inclusive.

The highest herd average was for the largest herd where 15 out of 20 cows were milked over eight months and these 15 cows averaged 8,317 lbs. milk and 321 lbs. fat.

Seventy per cent of the cows in this Association were reported for eight months or more, as compared with fifty seven per cent in all Associations in Alberta for the year.

The Millet Cow Testing Association had the largest number of members of any association in the province, and is the second oldest one in continuous operation.

There were eight Cow Testing Association in operation in Alberta last year.

The officers of the Association are: President, A. E. Dowdell; Vice-President, T. H. Howes; Secretary-Treasurer, W. J. Miller.

TO MAKE IT APPETIZING—A negro woman went to her husband's physician and said: "Doc, Ah's come to see is you gwine to order Ratatou one of dem mustard plasters again today?"

"I think, Mandy, perhaps he'd better have one more," replied the doctor.

"Well, he says to ax yo' kin he have a slice of ham with it 'cause it's mighty powerful to eat alone."

Wife: "Why don't you buy me a new dress? Am I not dear to you?" Husband: "You are not, but the dresses are."

### BOYS' MISSION CLUB GIVE TEA AND CONCERT

The afternoon tea and concert given by the Boys' Mission Club and Junior Auxiliary of the Anglican Church, on Thursday, was a very successful effort. Rev. A. Murphy was present.

Following refreshments nicely served at a decorated table, the following program was presented: Thelma Anderson acting as chairman; Piano duet, Phyllis Bear and Irene Kent; recitation, Robert Thorn; piano solo, Irene Kent; recitation, Elsie Johnston; piano solo, Phyllis Bear; flower recitation, by seven little girls were prettily dressed to represent flowers. They were Phyllis Bear, Molly Moore, Esther and Verle Pettit and their little sister, Irene Kent and Mary Carr. After the entertainment many merry games were enjoyed. Miss Camp was in charge of the arrangements.

When Mother sings, At evening, Beneath a lamp's soft gleams— Her lullaby is baby's boat Into the land of dreams.

When Mother sings A childhood task Is made to seem like play— And childish quarrels, hurts and woes Depart in magic way.

When Mother sings The doubts and fears That life oftentimes impart Is banished, for her cheerfulness Puts song into our hearts.

Show me a home of happiness, With strife and discord rare, And I will wager half my life There's a singing mother there.

—From "Child Welfare Magazine"

It was the evening after the night before. "How did you find yourself this morning?" asked one participant of another.

"Easily," was the reply. "I just looked under the table and there was."

I.O.O.F. ANNIVERSARY SERVICES

The anniversary services of Millet Lodge No. 145, I.O.O.F., and commemorating the 110th anniversary of the forming of Oddfellows in America, were held on Sunday afternoon at 2:30 o'clock. The members and visiting brothers assembled in the Community hall and marched in a body to Phynon's hall, where the services were held. About 100 Oddfellows, including about 30 visiting brothers, were in the parade, which was in charge of Marshall Bro. Fred Thompson. More than 500 people were present at the service, which was very impressive throughout.

Rev. Arthur Murphy of the Anglican Church, read the Scripture lesson and led in prayer. Rev. L. R. MacDonald, pastor of Millet United Church, addressed the congregation in an earnest and impressive sermon, the keynote of which was Truth.

The service of song was led by the United Church choir, assisted by members of the Anglican Church. A chorus arrangement of "The Lost Chord" was rendered by the choir with good effect. A quartette "That Beautiful City," was sung by four members of the choir, Mrs. R. Giblin and Mrs. P. Atkins, Mr. F. J. Higginson and Mr. J. R. K. Graham. Mr. Higginson singing the solo part.

A very appropriate reading in commemoration of Mother's Day was given by Miss Gwen Christie, Sir Walter Scott's "To a Mother." This was an impressive selection and most pleasingly rendered. Mrs. Jordan assisted as pianist in a very effective manner.

At the close of the service the Oddfellows filed out to the strains of a Grand March and proceeded to the Community hall where tables were laid for 100 guests, who were then seated and served with light refreshments. The seats were refilled many times, until everyone in sight had been served.

The Oddfellows desire to extend cordial thanks to all the ladies who so kindly contributed to the banquet and assisted so enthusiastically in serving, also to all others who contributed to the success of the occasion.

Brother Walford of Edmonton, editor of "The Oddfellow," was present at the services.

Art is the beautiful way of doing things. Science is the effective way of doing things. Business is the economic way of doing things.

MILLET ALBERTA

## AN AMAZING ERA

There is an amazing era. Established laws have been upset and distance and time annihilated. Yet the change that has taken place in life and business in recent years has come about quietly and without actually being noticed by many. Mechanical power has liberated us from brute burdens, and production has been so increased and cheapened that practically everyone is able to enjoy a large share of the good things of life.

## Here and There

(247)  
Arthur W. Cullen, Chicago wheat king, is erecting a hotel in his native city of Guelph, Ontario, which will be operated by the Canadian Pacific Railway. A golf course and pleasure park will be also established, the whole undertaking at an expenditure of about \$2,000,000.

The sumptuous new Solarium lounge car, built into service by the C. P. R. as rear end equipment aboard the Trans-Canada Limited is being nicknamed "the mustard plaster car." It was facetiously suggested by railway officials that the company should provide passengers with mustard plasters as it was recently claimed in England that these were more effective than ultra-violet rays. This contention was disproved, however, and the trouble taken by the railway is blazing the end sun room of the car with special ultra-violet, which admits the ultra-violet and most beneficial rays of the sun, was justified.

Officials of the C. P. R. in the east can now speak to their conferees in the west—as in connection with the recent improvement and extension of the railways telegraph carrier system, telephone facilities were also thrown open.

The community of globe trotters who made a circuit of the globe during the winter aboard the Canadian Pacific liner Empress of Australia contributed a series of remarkable letters to the social notes of the New York newspapers when their vessel terminated her voyage there. An engagement, a marriage, and the birth of five children to a Japanese passenger were announced, constituting in the opinion of Captain Latta, commander of the cruise ship, something hitherto unrecorded in seafaring annals. The five Japanese babies were appropriately named the "Empress of Australia," "Empress of Scotland," "Empress of France," "Empress of Canada," and "Empress of Russia," after the plants of the Canadian Pacific fleet. The babies were canaries.

D. C. Coleman, vice-president of western lines of the Canadian Pacific Railway, has been elected a director of the Metropolitan Life Insurance Company of New York. The only other Canadian director is Hon. L. A. Taschereau, Premier of the Province of Quebec.

A tunnel built at a cost of \$250,000 makes it now possible for trains from North Vancouver to connect with the Canadian Pacific Transcontinental system. The first train making use of this new connecting link that also makes use of the second narrows bridge and the harbour rail system, carried the Governor-General and many distinguished westerners.

Funerals and weddings can hold no terrors for Captain Frank Middleton, of the Canadian Pacific ship "Alberta," who has been presented with no less than three top hats. As captain in charge of the vessel entering the ports of Seattle, San Francisco, Port of Mexico and Fort William for the first time this season, opening navigation at each point, he was given the traditional welcome address and presented with a silk hat on each occasion. His three shining toppers repose in a neat row in his cabin, and it is estimated that it will take three hundred years to wear them all out.

A GOOD THING TO DO  
"Stop sniffing, little boy. Can't you do something with your nose?" an austere old gentleman inquired of a youth on a crowded street car.  
"Yes, sir," replied the lad politely. "I can keep it out of other folks' business."

**The "Flu" LEFT HER WITH A Wretched Cough**

Mrs. E. A. Brooks, 1104 Robson St., Vancouver, B. C., writes:—"Last winter I had the 'flu' twice, and the last time it left me with a wretched cough that seemed to stay right with me until I used

**Dr. Wood's Norway Pine Syrup**

"The first bottle I used seemed to relieve it so much. I purchased the second one, and, now, I find my cough has completely left me."

"I shall certainly never be without a bottle of Dr. Wood's Pine Syrup in the house."  
Price 50c, a bottle; large family size 60c. at all druggists and dealers.  
Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

## MILLET LOCAL NEWS

\*\*\*Watch out for the Ocelavo Pierrots, coming soon.

Mrs. H. Brinker was at home from Edmonton over the week-end.

Messrs. Robert and Louis Dillio, Emil and George Skoyo, motored to Edmonton on Sunday.

Mrs. O. Wolf and children of Edmonton, spent Sunday at the home of Mr. and Mrs. G. Wolf.

Mr. and Mrs. Robert Haskins and Mr. Spinks of Olive, were guests at the home of Mrs. W. Ross on Sunday.

Mr. Andrew Gallas came home on Friday from the Misericordia hospital, where he has been ill for a couple of weeks.

Mrs. Harrison of Edmonton, and Mrs. Walker of Wetaskiwin, were guests at the home of their parents, Mr. and Mrs. P. Facey, last week.

On Saturday evening, Miss Archibald visited the O'Mara U.F.A. Local, and assisted by Mrs. W. Ross, U. F. W. A. director, was successful in forming a promising Junior local with sixteen members.

Mr. and Mrs. Saunders, Mrs. Buchanan and three children, Miss Harding and Mr. Marshall of Edmonton, Mr. and Mrs. Breton and two children, from Telfordville, were guests of Mr. and Mrs. J. B. Christie on Sunday.

The Millet juvenile baseball team journeyed to Leduc on Saturday, May 11th. The game was won by the Millet team, the score being 23 to 2. The Millet line-up was as follows: John Dushak, c; Harry O'Leary, p; Oliver Anderson, 1b; Lorne Carney, 2b; Gordon Kerr, 3b; Jack Prichard, ss; Milford Prichard, lf; Yee Quong, cf; Adrian Kent, rf.

The Tennis club executive met during the past week, when it was decided to arrange the tennis courts on the ground to be used by the Curling club, this decision being made owing to their not being able to secure the ground formerly decided on. In the interval, a temporary court will be laid out on the ground adjoining the United Church, and this will be used until the larger courts are made.

Your food doesn't do you any good if you're tired

At the end of a day's work, relieve nervous tension before eating. Wrigley's will refresh and tone you up—so that you're ready to enjoy your food.

Then, after meals, Wrigley's helps digestion, cleanses the teeth, removes all traces of eating or smoking—sweetens the breath.

## RIGHT IN THE SHOULDER "Fruit-a-tives" Did Stop His Rheumatism

"Fruit-a-tives" soothed his kidneys—freed his system of excess acid and poisonous waste—regulated his bowels—purified his blood—and this is why Mr. S. Floyd of Nanaimo, B.C., is not bothered with Rheumatism any more.  
"I suffered with Rheumatism in my shoulders and, as most of my friends were taking 'Fruit-a-tives,' I decided to try them. In a short time the pain disappeared and I had relief for the first time. I think this medicine really marvelous.  
If you are bothered with Rheumatism in the arms, legs or back, or with Neuralgia or Headaches, get 'Fruit-a-tives.' 25c, and 50c. a box—at dealers everywhere."

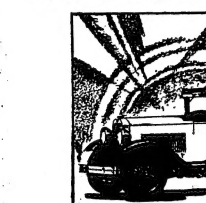

LADIES! TRY THIS

An Omelette: To make a successful omelette, you must beat it well; it is not wasted time. For this recipe beat well the yolks of three new-laid eggs. When as well beaten as possible, add the white in a separate basin, adding a pinch of salt. Whip them to a stiff froth (the yolks you beat to a cream, adding a tablespoonful of sugar). Then mix yolks and whites very lightly together. Heat an ounce of butter in your omelette pan, and pour in the mixture; stir quickly with the blade of a knife until it begins to set, and shake the pan to prevent the omelette sticking to it. Warm some apricot jam, and when the omelette is a nice yellow color take it from the pan; spread the jam on one half, fold

SMOOTH AND QUIET AT EVERY SPEED

TAKE Oldsmobile out and try it—in the swift press of traffic and on the open road. You'll find dazzling acceleration, as smooth and staccato as the pick-up of an electric motor. You'll find exhilarating speed, with freedom from noise or vibration throughout the entire range. You'll find a tireless, effortless flow of power, with a tremendous reserve for steep hills and hard pulling.

The Fisher Body interiors are luxuriously comfortable, with wide, deep-cushioned seats. And four Lovejoy hydraulic shock absorbers assure restful riding ease on any road.

Come, take a drive in this finer Oldsmobile. Experience thrilling, powerful performance that is smooth and quiet at every speed. Then . . . compare its value!

the other part over, dust with fine sugar, and serve at once.—Northern Messenger.

The Saskatchewan Egg and Poultry Pool was organized because the farmers' wives regarded the system of individual selling as inefficient and under the full measure of profits was not going to the producer. Last year the Pool marketed 15,000,000 eggs and over half a million pounds of dressed poultry, most of which went to Eastern Canada and the United States.

Now Dresser: "There's a gentleman at the door who insists on coming in." Actress: "Did you ask for his card?" "Yes, but he only laughed and tried to kiss me."

Actress: "Oh, let him in. That's my husband!"
